

Bringing Aromatherapy into Healthcare

Core Training Program

The top choice of programs for Senior Care, Skilled Nursing or Mental health settings. This comprehensive program includes basic foundational concepts, a wide variety of essential oil choices and application methods selected to meet your therapeutic goals.

We provide a well paced and structured learning process coupled with practical application exercises to apply the information.

After training is completed, your staff is enthusiastic, confident, and ready to start.

Benefits of Aromatherapy in Healthcare

- Improve patient satisfaction and comfort care
- Reduce stress for staff, residents, and families
- Provides a non drug option to reduce stress, pain
- Delivers comfort care for Hospice, Palliative, long and short term care
- Promotes restful sleep, may help to reduce falls
- Creates a welcoming, well being environment for all

How we Can Help You Get Started!

One of the problems you face when starting a new program on your own, is understanding what it takes to develop an aromatherapy program within best practices of Clinical Aromatherapy. Like many things, you don't know, what you don't know, until you begin!

I know what it takes to implement a professional, cost effective program in large and small organizations. Intelligent use and excellent staff education of essential oils is critical in Health Care settings.

"We chose Jodi because of her experience in health care implementation. She knew what we needed to do to get started. Our program was thorough, clear and easy to get started. We are already seeing great results, our staff and residents love it!"

Jenny @ Bethel Health Care

Jodi Baglien, I blend my years of experience as a Certified Clinical Aromatherapist, Educator and Integrative Therapist to deliver an evidence based, compliant and sustainable aromatherapy programs into health care settings.
